

# Vijay Tak

Experienced professional with 4+ years of experience. Proficient in web development and algorithmic problem-solving. I am looking for a challenging role as a software developer where I can use my skills to make a difference.

## EXPERIENCE

### In Time Tec, India — [Senior Software Engineer]

Apr 2024 - PRESENT

- Led the HP SARA Project, upgrading to an optimal library that reduced development time by 30%, resulting in faster feature delivery and enhanced overall project velocity.
- Implemented clean code principles, leading to a 40% reduction in code review iterations and an overall enhancement in code quality.
- Mentored over 5 junior engineers through In Time Tec's "Learn and Code" program, which enabled them to become efficient contributors in manageable and scalable code practices.

**Tools used:** React JS, Redux-Toolkit, JavaScript, TypeScript, Nest JS, Styled-component, React-query

### In Time Tec, India — [Software Engineer]

Apr 2021 - Mar 2024

- Designed and developed scalable front-end components for HP Sales Central, leveraged by 3,00,000+ users globally.
- Successfully revived two high-risk projects by streamlining processes, re-establishing project momentum, and earning client appreciation for the timely delivery of critical milestones.
- Enhanced legacy code reliability by writing test cases using the React Testing library, resulting in a 20% increase in test coverage.
- Integrate SonarQube scanning practice for testing reports.
- Handled client requirement gathering, feature decisions, and task creation for Stashrun - the funding app, which enabled the development team to understand the deliverables tracked on the AZURE and JIRA board.
- Implemented user interfaces for filling in personal and business details and integrated games and sharing functionalities on social media.
- Improved the performance of projects by 30% through optimization techniques like lazy loading, memorization, and debouncing, infinite scrolling and resulting in faster load times.
- Interviewed candidates for software engineering roles in the organization.

**Tools used:** React JS, Redux-Toolkit, Jest, React-testing library, JavaScript, TypeScript, Tailwind, Supabase.

### [In Time Tec], India — [Junior Software Engineer]

Oct 2020 - Mar 2021

- Implemented refresh token functionality for HP Sales Central, enhancing application security and optimizing user session management.
- Resolved 20+ bugs for HP Sales Central and HP Gaia Tool.
- Refactored the codebase to eliminate duplicate API calls, resulting in a 20% improvement in overall application performance.

**Tools used:** React JS, Redux, JavaScript, TypeScript, Node JS

## SKILLS

React JS, Redux, Redux toolkit

TypeScript & JavaScript,

Jest, React Testing Library

HTML, CSS/SCSS, Tailwind,

Styled Component, Ag-Grid

NodeJS & Nest JS

Supabase & Firebase

Data Structures, Algorithms

Software Development

## EDUCATION

*B.Tech. - Computer Science | 72%*

JK LakshmiPat University | 2017-2021

## ACHIEVEMENTS

Recognized by the client for exceptional contributions in delivering critical project components.
